

A MESSAGE FROM THE PASTOR I just received a call from an organization that does contact tracing for the Boston Public Health. She called to inform me that an individual who was at the ceremony for Confirmation on February 20th at 5:30 p.m. tested positive for Covid-19 and asked me to inform families of the positive diagnosis.

Given that it was two weeks ago hopefully it has not and will not be an issue in any of our lives and the lives of our loved ones. She was also pleased that the doors and windows were open which allows for the better flow of air and that the number of the assembly was low. If you have any questions or concerns please let me know. Also, prayers for the individual who had the positive diagnosis and for their family.

Fr. Jack
